# SNEHA CHOUDHARY

**Full Stack Developer | Software Engineering**

Jabalpur, Madhya Pradesh, India • +91 8349254971 • snehachoudhary2620@gmail.com

LinkedIn • GitHub • Portfolio • LeetCode • CodeChef

## PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science (Data Science) student at RGPV Bhopal with a strong foundation in Object-Oriented Programming (OOPs), Data Structures & Algorithms, and Full Stack Development. Experienced in building responsive web and mobile applications using Python, Java, JavaScript, and React. Disciplined problem solver with 500+ LeetCode problems solved and a peak CodeChef Rating of 1890, dedicated to clean code, continuous learning, and shipping reliable software.

## EDUCATION

**School of Information Technology, RGPV Bhopal** Sep 2023 – Jun 2027

*B.Tech in Computer Science and Engineering | Specialization: Data Science* ***SGPA: 7.78***

**Relevant Coursework:** Object-Oriented Programming (OOPs), Data Structures & Algorithms, Database Management Systems (DBMS), Operating Systems, Computer Networks, Software Engineering.

## TECHNICAL SKILLS

| | |
|---|---|
| **Programming Languages:** | Python, Java, JavaScript, TypeScript, SQL, Dart |
| **Core CS Fundamentals:** | Object-Oriented Programming (OOPs Pillars), Data Structures & Algorithms, DBMS, Operating Systems |
| **Frontend Development:** | React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap |
| **Backend & Mobile:** | Node.js, Express.js, REST APIs, Flutter, Dart, Firebase Authentication |
| **Databases:** | MySQL, PostgreSQL, MongoDB |
| **Tools & Platforms:** | Git, GitHub, Linux, VS Code, Postman |
| **Soft Skills:** | Analytical Problem Solving, Team Collaboration, Technical Communication, Agile Methodology, Adaptability |

## WORK EXPERIENCE

**Infosys Springboard — Java Intern (Batch 6.0)** Sep 2025 – Dec 2025 | Remote

- Completed an intensive enterprise Java training program, scored in the **Top 15% of the batch**, and secured selection for the Batch 6.0 internship.
- Delivered backend assignments covering object-oriented design patterns, core data structures, and automated unit testing with **JUnit**.

**Edunet Foundation — Data Science Project Intern** Jan 2025 – Feb 2025 | Remote

- Analyzed 10 years of Indian agriculture data using Python (Pandas, Matplotlib, Seaborn) to uncover patterns and generate structured data insights.

**CyberGyan, C-DAC — Linux and Systems Training** Jul 2024 – Sep 2024 | Remote

- Completed 200 hours of practical Linux system administration and networking training covering shell commands, permissions, and network debugging.

## PROJECTS

**HAQ Agent – Government Schemes Awareness Assistant** ↗ GitHub **Meesho AI Hackathon Top 500**

*React.js, TypeScript, Node.js, Python, MongoDB Atlas, Vercel*

- Shortlisted in **Top 500 out of 36,000+ participants** nationally — engineered an AI portal to empower citizens with awareness of eligible welfare schemes.
- Built a responsive web application enabling users to input queries and receive personalized eligibility guidance in real time.
- Implemented robust input validation and clean RESTful endpoints, achieving sub-800ms response times and an accessible user experience.

**OmniAgent – Interactive AI Assistant & Reasoning Studio** ↗ GitHub

*Python, JavaScript, REST APIs, HTML5/CSS3, Vercel*

- Designed and developed an interactive full-stack AI workflow tool executing structured task automation and query analysis.
- Built modular backend services in Python with integrated safety verification and real-time client communication.

**RoomSync – Student Roommate Matching Platform** ↗ GitHub

*Node.js, Express.js, MongoDB, React.js, JWT Authentication*

- Designed and deployed a full-stack roommate matching platform across 10 Indian cities with secure JWT user authentication.
- Developed a multi-criteria compatibility algorithm with a 12-question quiz that improved matching accuracy over random pairing.

**PathForge – Career Roadmap Mobile Application** ↗ GitHub

*Flutter, Dart, Firebase Authentication, Firestore*

- Developed a cross-platform mobile application generating structured study roadmaps across 25 engineering tracks.
- Integrated Firebase Authentication and Firestore for real-time progress tracking with reliable offline data storage.

## ACHIEVEMENTS AND CERTIFICATIONS

- **Meesho AI Hackathon 2025:** Shortlisted in Top 500 out of 36,000+ participants nationally — built HAQ Agent.
- **Competitive Programming:** Peak CodeChef Rating: **1890**; solved **500+ problems on LeetCode** with dynamic programming and graph focus.
- **Google Gen AI Exchange Program:** Chosen by Google Cloud and Hack2skill for AI mentorship, achieved **Top 50 rank nationally** out of 10,000+ participants.
- **Google Student Ambassador:** Conducted campus workshops reaching **500+ students**; recognized with Legend Tier status.
- **Google Cloud & AI Certifications:** Completed foundational certifications covering Cloud Computing, AI, Machine Learning, and Data Analytics.
